Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 16 August 2004.
- 2a) ☒ This action is FINAL. 2b) ☐ This action is non-final.

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 2, and 5 are rejected under 35 U.S.C. 102(b) as being anticipated by Desilets(US 2004/0040637)

Desilets discloses carbon nanotubes (SWNT or MWNT) that are included in an explosive composition.

3. Claims 1-3 and 6 are rejected under 35 U.S.C. 102(b) as being anticipated by both Fisher et al(6,203,814) and Niu et al(2003/0089893).

Both patents disclose adding functional groups to nanotubes by treatment with nitric acid and oxidizing the surface.

Claim Rejections - 35 USC § 103

4. Claims 6-15 and 17-24 are rejected under 35 U.S.C. 103(a) as being unpatentable over Stephens in view of Desilets (US 2004/0040637) as applied to claims 1, 2, and 5 above.

Both patents to Stephens disclose a class of fullerene derivatives in which the oxidizing groups are attached directly to the fullerene cage and can include nitrate groups. These derivatives are used as an energetic fuel in a rocket. Stephens does not

Art Unit: 3641

disclose the use of these derivatives with other explosive devices or the nitration of carbon nanotubes or buckypaper.

It would have been obvious to one having ordinary skill in the art at the time the invention was made to nitrate the nanotubes disclosed by Desilets with the oxidizing groups taught by Stephens since the nanotubes have the same physical characteristics as the fullerene derivatives that are taught. It would also have been obvious to one having ordinary skill in the art at the time the invention was made to use nitrated fuels in other explosive devices since Stephens discloses that they are capable for use as explosives and also to nitrate other fullerene products such as carbon nanotubes or buckypaper since this would result in a similar nitrated explosive.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 3641

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Aileen B. Felton whose telephone number is 571.272.6875. The examiner can normally be reached on Monday-Friday 6:30-4:00, except alternate Fridays.
